PLEASE READ As per Group contract, the group members acknowledge that when the Hotel reserves the rooms on behalf of the group, the Hotel does so to the exclusion of other business. The Group also understands that the Group's cancellation of this contract, or a substantial decrease in the number of rooms booked, will cause the Hotel to lose revenues. With this in mind, the group will have the opportunity to reduce its reservations if done so 24 hours prior to arrival without penalty. On the other hand, if reservations are cancelled inside the 24 hour time frame, the first night revenue will be charged to the guaranteed party. After the cut-off date has passed, any additional reservations for this party will be made at the house rate being offered and the discount group rate will no longer apply.
